

Town of Newtown
Capital Improvement Plan (CIP) Policy

§ 310-1. Purpose

This policy is designed to assure that Newtown's needs are fully considered in the capital planning process. It helps to assure the sustainability of Newtown's infrastructure by establishing a process for addressing major maintenance, construction, replacement and capital asset acquisition. It strengthens Newtown's borrowing position by demonstrating sound fiscal management and showing the Town's commitment to maximizing benefit to the public within its resource constraints. It establishes a framework in which stakeholders understand their roles, responsibilities, and expectations for the process and end result. It also promotes sound, long-term operational and capital financing strategies.

§ 310 - 2. Goal

- A. The goal in adopting this regulation is to:
 - 1. Prioritize, on a Town-wide basis, proposed major capital assets/projects;
 - 2. Establish a consistent level of spending for such capital assets/projects;
 - 3. Integrate financial planning, budgeting and debt issuance for the Town;
 - 4. Encourage careful project design.
- B. This Capital Improvement Plan (CIP) regulation hereby:
 - 1. Creates a process by which the Board of Finance adopts a proactive position regarding capital expenditures of the Town of Newtown;
 - 2. Creates a process by which the Board of Finance evaluates, modifies, postpones or eliminates, prioritizes, and monitors proposed capital assets/projects;
 - 3. Creates a process by which the Board of Finance and Legislative Council work compatibly in enacting the above Sections B(1) and (2).

§ 310 - 3. Overview

- A. The Capital Improvement Plan (CIP) is Newtown's five-year program of major capital asset/project acquisitions of a nonrecurring nature. The CIP is based on assigned priorities that consider Town: plans, needs, desires and mandates in the context of current and anticipated financial capability to finance such improvements. A "capital improvement" is defined as any expenditure for equipment, buildings, infrastructure, land acquisition, plan or project in which the total cost exceeds \$200,000.
- B. The CIP shall be reviewed at least annually. The need or idea for capital assets/projects may originate from department heads, boards or commissions. These capital assets/projects items are compiled by the Board of Selectmen and Board of Education. After review and endorsement by the respective boards, each Board presents their proposed CIP to the Board of Finance. Following the presentations, a combined CIP along with analysis by the Finance Director is presented to the Board of Finance. The

Board of Finance shall review and may amend the CIP which is then presented to the Legislative Council for review, amendment and approval.

- C. A "Major Capital Asset/Project" is defined in Section 310-6.
- D. Once the Legislative Council has approved the CIP, the CIP outlines the Town's official intent to fund these expenditures in the subsequent years' budgets. Certain items may be subject to approval by Referendum and/or require bonding authorizations.
- E. Adopting a CIP does not end with the first year. Changing needs, priorities, emergencies, cost changes, funding shortfall, mandates, technology or other circumstances may require changes, deletions or additions to the CIP annually.
- F. The CIP achieves the following objectives as a component of the Town's budget and financial planning process:
 - Minimizes borrowing costs by supporting a high bond rating;
 - Reduces the need for "crash programs" to finance Town Capital Assets/Projects;
 - Focuses attention on community goals, needs and capabilities;
 - Guides future community growth and development;
 - Ensures that projects are well planned in advance of construction;
 - Provides for the orderly replacement of capital assets;
 - Encourages a more efficient governmental administration as well as maintains a sound and stable financial program;
 - Promotes transparency regarding planned major capital assets/projects and their costs.

§ 310 - 4. Implementation and Amendments

Notwithstanding that capital asset/project ideas or needs may originate as indicated in Section 310-3, the Board of Finance is responsible for implementing the Purpose and Goals expressed above in Sections 310-1 and 310-2 and all changes, additions and deletions to the CIP. In addition, among others, the Town Financial Director, First Selectman, Chairman of the Board of Education, Superintendent of Schools and Legislative Council members may advise the Board of Finance but do not have voting privileges. The final approval and funding appropriation for the CIP is vested in the Legislative Council, unless expressed otherwise in this CIP policy.

§ 310 - 5. Presentation of Proposed Capital Assets/Projects to Board of Finance

Proposed capital assets/projects may be brought to the Board of Finance at any time. However, except for exigent circumstances, as determined by the Board of Finance, requests for changes to the approved CIP shall not be considered by the Board of Finance until the next September through November period. If an exigent circumstance arises and necessitates an amendment to the CIP, then that amendment will follow the same CIP approval process: Board of

Every project accepted into the Capital Improvement Plan, as approved by the Board of Selectmen, Board of Education, Board of Finance and Legislative Council is subject to the same rigorous review. Except for emergency situations, a consistent and documented process should be used to advance every capital project or asset purchase from inception to execution by its requesting agent.
- B. Projects or purchases approved for inclusion in the CIP typically progress from the introductory phase in year five to the execution phase in year one. As in § 310-7, years

one through five are part of the CIP approval and years six through 10 are informational only. However, priorities may change between each annual review. Projects in year one on the CIP are intended for implementation during that fiscal year. Capital Projects to be implemented must go through the bonding and special appropriations processes, as determined by Charter § 6-35.

 - i. Per § 6-35(d) of the Town Charter, the Legislative Council shall have the power to make special and emergency Appropriations, in an amount not in excess of \$1,500,000 for any one purpose during a fiscal year. Said amount shall be cumulative during the fiscal year as to all appropriations related to said purpose. The total of special and emergency appropriations made by the Legislative Council for all purposes during a fiscal year shall not exceed an amount equal to one mil on the most recently completed Grand List.
 - ii. Any amount exceeding either of these limits must be submitted to referendum for voter approval.
- D. Management/oversight of capital/projects: The Public Building and Site Commission shall have control of supervision and construction of capital projects. Should the Public Building and Site Commission determine that it is unable to take on this responsibility, then other building committee or owner's representative may be appointed by the Board of Selectmen or Board of Education.
- a. The Public Building & Site Commission or "other" authorized building committee will establish appropriate advisory committees; will prepare and issue appropriate Request For Quotations and Request For Proposals; and will select professionals and develop contracts with attorney and purchasing agent's input.
